

Imaging Partners International IAMT Training Center

I. Pre Requisite TRAINING COURSE- Three Day Program

This course is designed for individuals with limited medical experience. The first day will be dedicated to acquainting trainees with basic anatomy, medical terminology, anatomical positioning and medical protocols. Trainees will then be prepared to complete the following two day course.

Three Day Course\$2,900

II. TWO DAY COURSE —Imaging Partners Training Center

For new individuals or companies starting a thermography business or adding a thermography business to an existing practice we recommend you and a technician attend a two day training course with Imaging Partners International. Includes: Comprehensive Thermography Training, Protocols and Business Practices

Day 1

1. Introduction to Clinical Thermography: History of thermography, understanding the sympathetic nervous system as it relates to thermography
2. Camera Care and set up
3. Clinical Thermography: room conditions, standard protocols, preparing client for scan, reviewing client medical forms, and software introduction.
4. Observation of Scanning Procedures
5. Demonstration and Discussion of Clinical Challenges: clients with limited mobility, cold Stress testing, scanning feet and hands, and reviewing scans with client

Day 2

1. Image Optimization: student practices skills relating to temperature scale, focus, framing and positioning
2. Imaging Practice: Student practices with observation
3. Imaging: Student scans without observation
4. Imaging/ Lab Set Up: Getting started, materials, etc.
5. Basic Marketing: Bringing Thermography to your community

Upon completion of this course, the trainee will be prepared to set up and execute a thermal imaging practice or integrate thermography into an already existing medical practice.

Imaging Partners International IAMT Training Center

III. Online Course

This course is designed for EXISTING THERMOGRAPHY BUSINESSES.

For Current thermographers, wanting to update the camera or software, Imaging Partners offers a 3 hour online training course.

Online Training Course.....\$399

IV. IAMT Certification Course

Pre Requisite: 50 scans submitted to Physicians Insight

Course is **designed for Existing Practices**, wanting a non-certified technician to qualify for certification by the IAMT (any technician that has not been trained by a certified IAMT Trainer, Imaging Partners Int.)

Online course: Test questions are provided in all categories:

- A. Image quality
- B. Positioning (scan protocol)
- C. Framing
- D. Focusing
- E. Temperature settings
- F. Also a variety of questions covering, history taking, client/patient protocol, ethics/medical practices, HIPPA guidelines, and scanning.

After completing the course a written report will provide the technician with an evaluation and study guide to prepare for certification.

Approximate time 1 1/2 hours\$299

Fee includes study guides and presentation evaluation of strengths and weaknesses.

Please Note: We also offer a mobile training service to those who wish to be trained at their site. In this case, travel expenses are added to the fees below. This is most beneficial for those who want more than two individuals to be part of the training course. There are not additional fees for a small group of 4 or less to be trained at your site.
